

3M™ Particulate Respirator 8210V, N95

Model : 8210 V

Product Details

- Proprietary 3M™ Cool Flow™ Valve helps keeps wearer cool
- Cushioning nose foam
- Adjustable noseclip helps provide a custom fit and secure seal
- Two-strap design with stapled dual point attachment helps provide a secure fit.

3M™ Particulate Respirator 8210V, N95 is a disposable particulate respirator that is designed to help provide reliable respiratory protection of at least 95 percent filtration efficiency against certain non-oil based particles. This respirator is designed for use for particles such as those from grinding, sanding, sweeping, sawing, bagging, or other dusty operations. This respirator can also help reduce inhalation exposures to certain airborne biological particles (examples: mold, Bacillus anthracis, Mycobacterium tuberculosis), but cannot eliminate the risk of contracting infection, illness, or disease. The respirator incorporates 3M's proprietary technology with advanced electrostatically charged microfiber filter media designed for ease of breathing. This respirator is compatible with a variety of protective eyewear and hearing protection.

This particulate respirator is NIOSH (National Institute for Occupational Safety and Health) approved for environments containing certain non-oil based particles and provides at least 95 percent-filter-efficiency.

Breathing hazardous particles can pose a risk to your health. NIOSH, a Federal government regulatory agency, has tested and approved the 3M Particulate Respirator 8210V, which is designed to help reduce exposure to certain airborne particles.

Specifications

| | |
|------------------|---------|
| Aerosol Type | Non-Oil |
| Boxes per Case | 8 |
| Exhalation Valve | Yes |
| FDA Cleared | No |

| | |
|----------------------------------|--|
| Features | 3M Cool Flow Valve, Advanced Electrostatic Media, Environment – Hot or Humid |
| Flame Resistance (ASTM D2859-96) | No |
| Fluid Resistant (ASTM F1862) | N/A |
| Product Line | Respiratory Protection |
| Product Type | Dust and other Particles |
